

## Certified compliance ... The proof

### Accommodation

Save time and buy in complete confidence by selecting furniture conforming to current regulations and standards.

Supported by tests, the **NF Collectivité** mark (furniture for public spaces) provides you with objective proof that the product complies with specified requirements and takes into account the appropriate criteria for this specific use in terms of:

- > **Safety**
- > **Durability**
- > **Robustness**
- > **Hygiene**

For you, it is also the assurance that the manufacturer knows how to ensure a constant level of quality for all furniture marked **NF Collectivité**.

#### CABINETS

##### > Safety

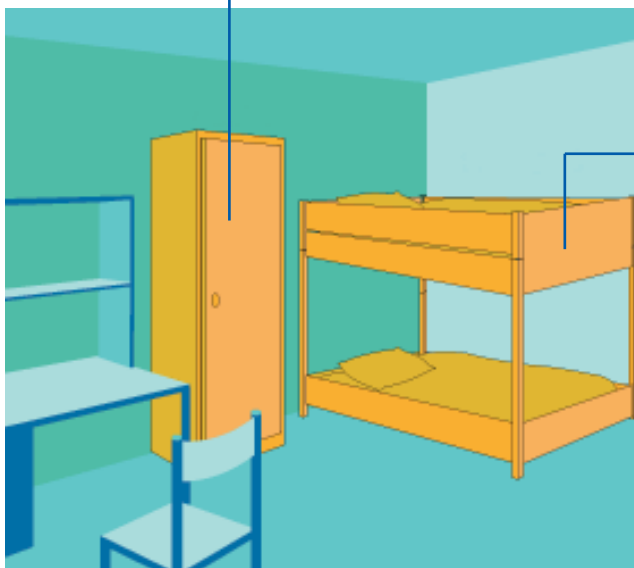

Stability when loaded drawers and doors are opened

##### > Strength

- Load on pull-out shelves at 1 kg/dm<sup>2</sup>
- 10 shocks on pull-out shelf catches with a weight of 1.7 kg
- Load on top at 1.5 kg/dm<sup>2</sup>
- Drawer loading at 0.5 kg/dm<sup>3</sup>
- Loads on hanging rails at 40 kg/metre length
- 4 accidental drops from a height of 100 mm

##### > Durability

- Doors opened 40,000 times
- Loaded drawers opened 50,000 times
- 1000 lateral thrusts of 300 N

#### UPPER BUNK BEDS

##### > Safety

- Conform to safety rules of Act n°95-949 dated 25.08.95
- Fixed barriers which cannot be removed without a tool
- Height of upper barrier and gaps between them
- Exit from upper bed identified (opening on major dimension)
- Dimensions of access ladder
- Lateral stability
- Marking of safety instructions

##### > Strength

- Load on bed base of 100 kg
- Vertical thrust beneath upper bed base of 500 N
- Vertical thrust on barriers of 1000 N
- Horizontal thrust on barriers of 500 N
- Load of 100 kg on a rung
- Horizontal thrust on a rung of 500 N
- 10 shocks with a weight of 15 kg from a height of 150 mm on a rung

##### > Durability

- 10,000 lateral thrusts of 300 N on the frame of the upper bed base
- 25,000 falls onto the upper bed base
